

Environmental Policy Statement

Contract Candles & Diffusers Ltd are specialists in candle and reed diffuser manufacturing, producing handmade candles and reed diffusers of the highest quality. Our customer expect and must have confidence in the products and services that we supply.

Contract Candles & Diffusers Ltd recognises the importance of complying with any applicable environmental legislation and other requirements to which the company subscribes. This is to ensure a higher environmental performance in it's day to day operations which can impact both directly and indirectly on the environment.

The company believes in, and is committed to monitoring and improving its environmental performance. We encourage good practise within the workplace and with our interested parties, like suppliers and customers including reduction of pollution.

The objectives of our Environmental Management System are:

- To achieve and maintain an effective Environmental management system complying with international standards ISO14001.
- Comply with applicable legal requirements and other requirements to which the company subscribes and relate to its environmental aspects.
- To encourage environmental good practise among suppliers and customers.
- Train and inform employees of the individual and collective responsibilities in maintaining this policy.
- To be committed to continuous improvement through review & action process steps, including the reduction of pollution.

This policy is promoted and supported by everyone at Contract Candles & Diffusers Ltd and is essential to the successful environmental performance of our business.

To achieve and maintain the required level of assurance, the Managing Director retains responsibility for the Environmental Management System, with routine operation control by the Group Health & Safety Manager & Sustainability Lead
